Washington has a population of 204,000. It was a good time to take the census when the city was full of persons searching for office.

General Logan did a pretty good day's work when he left that big tree in Illinois. It is evident that it will not take root again very soon.

Recent experiments made in the University of Kansas indicate that a person with the normal organs of taste can taste the bitter of quinine when one part of it is dissolved in 150,000 parts of water.

The administration is going to furnish a novel, which will be written by Secretary Whitney. There is a good deal of fiction about the administration and the public will be glad that it will be put in permanent form.

Last fall Hendriks and Randall said there was a surplus of \$400,000 in the treasury. Mr. Manning says there is \$25,000,000 in the treasury. An old wag requests the democrats to return the \$377,000 before they forget it.

Sarah Bernhardt will give a performance of "Phaedra" in Munich, when only one person will be present to hear it. It will be the King of Bavaria, and for the privilege of being the only spectator, he pays Sarah \$40,000 for the single performance.

Washington dispatches say that Mr. W. Sheaf has been appointed register of the land office at Watertown, Dakota, vice Charles G. Williams, suspended. It is said that Mr. Sheaf formerly lived in Janesville, and that now he lives at Pierre, in that territory.

It was thought that James Blackburn, the Kentucky confederate had his appointment as interest revenue collector revoked, because he was an ex-rebel. But Mr. Manning, the gentlemanly secretary of the treasury, made a nice distinction. Said Mr. Keightley, "Well, I've heard that man connected, with your department have called him a d—n rebel." "There must be some mistake," said Mr. Manning kindly. "I have never heard any one associated with me call Mr. Blackburn a d—n rebel. The only remark that I have heard that could be construed as at all unpleasant, was that he was a d—n fool." Mr. Manning pretty thoroughly understanding human nature, hit Blackburn a blow with his last remark which the public will appreciate.

Professor Swing, of Chicago, took occasion on Sunday morning to answer Colonel Ingersoll's lecture on "Blasphemy." Probably there is not a minister in the United States that can do Colonel Ingersoll up more skill and intellectually than Professor Swing. He squeezed the colonel's lecture as dry as a last year's chip, and did it without employing abuse or epithets. The Inter Ocean, in commenting on the sermon makes this point: "The argumentative attitude of the clergyman toward the great infidel is courtesy itself. Instead of being bitter or vindictive or abusive in his handling of topics Professor Swing is good-humored and even playful. There is not a trace of resentment in any sentence of the sermon, and yet every blow at Colonel Ingersoll is effective. The monster balloon labeled "A Lecture on Blasphemy," which in the hands of Colonel Ingersoll carried so many people of their feet, becomes under the playful puncturing of Professor Swing a collapsed skeleton, line-spun nonsense."

A few years ago in Philadelphia, it was a common thing for the professional jury-fixers to pack or fix a jury at pleasure, when one or the other of the parties in the case paid the price, the kind of a jury to start the party paying the price, was speedily obtained. This procedure defied the power of the courts. Justice was continually mocked by the corruption of juries, and the judges publicly lamented the scandal; but, though the jury-fixers were known to the officers of the court, it appeared impossible to bring any of them to account.

Things thus went on for some time, when the Philadelphia Times, after thoroughly investigating the matter, then offered a substantial reward for the arrest and conviction of these offenders. Within a few weeks a notorious jury-fixer was serving out a sentence in prison; others followed him there, while yet others fled the city, and the trade of jury-fixer was, for the time at least, broken up in Philadelphia.

The Chicago papers have an excellent opportunity to do the public a great service by following the example of the Philadelphia Times. There are a great many jury-fixers in Chicago, judging from the reported instances in which justice is insulted.

Every republican organ in the state has had a great many mean things to say of Colonel Vilas on account of the appointment of F. O. Thorpe, of Racine, as postmaster inspector. The organ has lied without stopping, but still continued to bear heavily upon the report started by General Birney earlier on the postmaster general to inquire about it, and that official had heard of the appointment; and so it turned out that nothing with any authority at Washington knew that any such appointment had been made, because it had not been made only in the imagination of the lying newspaper correspondents and other lying republican newspaper editors. This case is a fair specimen of the things for which the army of republican party liars are to break down the administration.—Madison Democrat.

The Democrat should keep cool this summer and not get too much excited over republican newspapers. The appointment of Thorpe as postmaster inspector of the northwest was regularly reported from Washington, and as it was not for different from many other exceedingly bad appointments, republican papers were justified

in believing the report and in sharply criticising the action of the postmaster general. Probably when the department saw what a blunder it made in appointing Thorpe it retracted as the president did in the case of Blackburn, C. L. Williams and Morrissey. It would seem from this that the administration is getting ashamed of some of its appointments.

THE CHRISTIAN GOD

DEVELOPED BY A PROCESS OF MORAL EVOLUTION,
And the Product of the Highest Aspirations of the Human Soul—First Discourse of the Series Pronounced by Beecher.

NEW YORK, May 25.—The crowd at Plymouth church, Brooklyn, Sunday morning, to hear the first of Mr. Beecher's series of sermons on evolution and religion, was so great that after the aisles and the open space in front of the pulpit had been filled with extra chairs, the pupil stairs were utilized as seats. Mr. Beecher spoke from the following texts:

"The God of Jesus Christ is life eternal; that they might have it. Then is the only true God, and Jesus Christ, whom Thou hast sent."

Second Peter, iii: 18.—"But grow in grace and in the knowledge of our Lord and Savior, Jesus Christ."

Mr. Beecher's substance:

"There are nothings which excite the political world today more than ever, though they have always lingered in the atmosphere of thought, are such as these: Is there a God? personal, creative, sustaining, governing? If so, how great? How wise? What is His name? What is His character? What is His will? How does He exist? Can we do more than hope and dream? Can we know? If there is a God, is it possible for the limited intelligence of man to understand His ways or His dispensation?"

Mr. Beecher's reply: "The holy Scriptures teach that there is a personal, conscious, intelligent God; that the cause of His creation lies beyond the range of our knowledge; that the God of the Bible is the God of the Devil; that He is omnipotent, and that He is wise, good, and benevolent to His will."

In this discussion I put the question of the nature of God in the spirit of my text. I consider how mankind may come to a knowledge of God by growth in grace. It is simply an expansion of the truth that the knowledge of God is to be gained through the study of the moral and spiritual experiences of mankind. The knowledge of God is not simply announced to us, but it is to be learned by observation, by study, by reflection, by inference, by analogy, and by deduction. The student of the Bible is gradually unfolded in us, and the knowledge of God is gradually unfolded in us."

I suspect that man at large supposes that God has to Himself the secret of His knowledge, and that He is not to be known except by direct revelation. But this is impossible. For, although there were abundant announcements of God's disposition, purpose and nature, they were made afterward, and in consequence of a foreign origin, and were not intended to be understood by all men, but to be understood by those who spoke. For a universal literature is dependent upon the alphabet, each letter of which is nothing in itself, but when placed in a word, it acquires a meaning, and so dependent upon a sort of alphabet of the faculty of the soul, and it is by combinations of them that men come to any true knowledge of things spiritual and divine.

The question of the origin of man is yet uncertain. It is by no means proved that he was evolved from the inferior animal world. There are many analogies and coincidences between man and the animal world, but it is impossible to prove that there were abundant announcements of God's disposition, purpose and nature, they were made afterward, and in consequence of a foreign origin, and were not intended to be understood by all men, but to be understood by those who spoke. IN A GRAVE PLIGHT.

CITIZENS OF SOUTHERN ILLINOIS UNDERRSERIOUS CHARGES.

Speculation in Death that is keeping but a sorry reward—a bold scheme to fleece the life insurance companies.

Cuba, May 23.—The Times' Bloomington, Ills., special says: "Warrants are out for the arrest of twelve citizens of Metropolis, Massac county, Ills., for an attempt to defraud some life insurance companies. Metropolis is in the southern part of the state and difficult of access, rendering it better for the scheme to be originated and carried out there. Some months ago the Bloomington Mutual Life Insurance company of this city was notified by the local agent of Metropolis that John T. Walker, of that place, was dead. Walker was recorded on the company's books as holding a policy for \$1,000, and the money was ready to be sent to Metropolis, when the company was notified by an anonymous letter that it might be well to look closely into the circumstances of the death of Walker. An inspector visited Metropolis immediately. He soon suspiciously ascertained by several of the suspected persons, but learned that though the death certificate, signed by a leading physician and an undertaker, said that Walker died Sept. 12, 1884, he had in reality died five months previous to that date. Other insurance companies began comparing dates, and it was found that a very unusual number of deaths of insured people had been reported from Metropolis, and great numbers of the inhabitants of the city and county. The inspector immediately canceled policies amounting to \$30,000, and took steps to bring the offenders to justice. As the details of conspiracy required repeated forgeries which were uttered in this McLean county, a special grand jury was held here last week, whose work was kept secret. On Sunday morning, the 19th, the whole of the indictment in Massac county was put under arrest. It has just over 100 indictments for conspiracy, forgery and fraud, etc., against the following persons, all leading citizens: John H. Norris, mayor of Metropolis; Harlan E. Armstrong; George F. Musgrave, city marshal; A. E. McCammon, deputy sheriff; James A. Williams, medical examiner; Dr. David E. Geplar, anesthetist; James H. Craig, G. H. Cronin, William Solley, H. C. Weston, and Green Trumbo. The court contained all the men necessary to execute the well-considered plan. The conspirators had already realized \$20,000 to \$30,000 out of the scheme, while it is estimated that they had their plans laid to rake in \$100,000 when detected. The chief sufferers, so far as learned, are the Mutual of this city, the Northwestern of this city, the Northwestern of Milwaukee, and the League of Lakes, which are the principal and most prominent eastern companies having victims, but the particulars can not yet be obtained. The operations of the ring were chiefly in and about Massac county and across the Ohio in Kentucky, at Paducah and Dyersburg, two places which furnished much of the testimony before the special grand jury. They insured many on their death-beds, without their knowledge, by means of false "doctored" statements as to age, condition, habits, etc., and when death came and soon after issue of policy, they buried them in the ground before advising the companies to divert suspicion. In some cases they took relatives into the plans and used them as instruments, designating them as the beneficiaries, and pocketing the money, giving the tool but a few dollars. Men as old as 85 and 90 were insured by stating that their ages were 30 to 40 years. John Turner, a pensioner of the government, died by a shot through his lungs, and drawing \$80 a month pension, insured heavily. From a suit brought by the pensioners, the conspirators gradually adopted more extensive and bold plans, and almost weekly some new and ingenious combination was added to their devices. The investigation has been conducted secretly by the officials here, and the arrests will cause much excitement in southern Illinois, where nearly all the indicted men are widely known. The ball of the indictment is \$800, so that several of the leading members of the ring must furnish \$8,000 to \$8,000, or be placed in jail."

Roswell P. Flower Expresses Himself.

Chicago, May 25.—"Well, I have plunged into a Republican atmosphere, haven't I?" exclaimed ex-Congressman Roswell P. Flower, of New York, as he glared around at the Logan demonstration at the Grand Hotel. "I am a Democrat," he declared. "I am glad that General Logan was successful, because it is impossible for a Democrat to secure the press. I have known the general for a long time, and like him very much as a man." To illustrate the change in the administration and the innumerable throng of office-seekers, Mr. Flower told a story about a little darkey who, after the election of a southern governor went to him with a big bag round his back and said that the "Democrats had sold him his provisions." It was natural that "he is just so as present with the Democrats" as he added, "for they are all seeking to have their bags filled with provisions." It is foolish to suppose that President Cleveland would in a day turn every present official out for new comers. The process will be slow but sure."

Hereditarily Reversed from Death.

Lowell, Mass., May 25.—Frank Euston, aged 18; Annie Myron, aged 18, and Nellie Devlin, aged 15, while boat-riding on the Concord river Sunday evening, were carried over a seven-foot dam. The boat was caught in the rocks, within reach of the heavy flow over the falls. Their situation was perilous in the extreme, but Charles Sponey, a one-legged swimmer, and another man, seized a boat and rescued them just as their own boat was sinking, and they were giving up in despair.

The Case Against Winans.

BALTIMORE, May 25.—Major Latrobe, one of Winans' counsel in the Winans-O'Keefe case, has returned from New York and has received a telegram from the other counsel of Ross Winans to the effect that Mr. Porter, counsel for Mrs. O'Keefe, had notified his client that he had withdrawn from the case, for the reason that the plaintiff had failed to pay him the sum of \$1,000 in advance of evidence introduced by the defendant at the trial Friday. Major Latrobe says that this action on the part of Mr. Porter practically put an end to the famous case. The evidence referred to was to the payment by Winans of \$80,000 to Mrs. O'Keefe in full of all demands. Another dispute from Mrs. O'Keefe, says the case will go on. Porter says the facts do not prove that she was guilty of the crime, but as she had made him fully acquainted with all the facts he decided to withdraw.

The Duty of State Legislatures.

Washington City, May 25.—A voluntary resignation of a postmaster at a small town in Indiana has been received at the postoffice department. The writer says: "I was first appointed in James K. Polk's administration, and have served ever since." He also mentions his wife and recommends him to follow him as his successor, saying: "This change will be Democratic, as I voted for Blaine and he voted for Cleveland."

Agricultural College Convention Postponed.

WASHINGTON CITY, May 25.—Commissioner Collier, of the department of agriculture, has sent out a circular letter changing the date of the proposed agricultural college convention in this city from June 24 to July 8.

Great Discovery.

Mr. Wm. Thomas, of Newton, Ia., says: "My wife has been seriously affected with a cough for twenty-five years, and this spring more severely than ever before. She had used many remedies without relief, and being urged to try Dr. King's New Discovery, did so, with most gratifying results. The first bottle relieved her very much, and the second bottle has absolutely cured her. She has not had so good health for thirty years."

War Preparations Again.

NEW YORK, May 25.—A London cable to The Sun says: Orders have been sent to Aldershot for a fresh squadron of hussars to embark for Egypt at the earliest possible moment. This order has caused quite a sensation as the destination of the guards at Alexandria and the Australians at Aden. Orders have also been sent to the royal arsenal at Woolwich for extensive overhauls and repair work in preparation for manufacture of ordnance and ammunition. Parliament is now in session; this revival of war preparations would furnish taxable material for a slate of questions.

It is, however, believed that the clubs and papers, whose opinions differ as to whether the moral effect of the preparations is intended mainly for Russia or for France.

—Mrs. A. C. Kent started this morning for Denver, Colorado, where she will spend a month or two visiting with her sister in that city.

Our readers will notice the change in the arrival and departure of trains at this station on the Chicago and Northwestern railway—the change taking effect to-day.

Bradley vs. Cramer.

The jury in the above case retired about three o'clock Saturday, and in the evening returned a verdict of \$5,000 damage for the plaintiff.

The action was brought by Mrs. Bradley because of an article published in the Evening Wisconsin, in Milwaukee, in January, 1882, which stated that the cause of Dr. C. Bradley's suicide, which occurred in Kenosha on Christmas, '81 was his wife's execrations and desertion of him.

—Wm. L. Mitchell, Esq., of Chicago, is in the city, called here to attend the funeral of his father, Dr. John Mitchell, whose death is noticed in another column of this paper.

—The "Swiss Bell Ringers" paraded the streets this noon with a band discoursing some very good music. The company give an entertainment at the opera house this evening.

—There was a little fight up at the "five points" on Saturday evening—one of the "pitch boys" pitched into a green looking countryman—and in less time than it takes to tell the story the pitch rough cried out "Hold, enough."

—Mr. Moseley, the manager of the open house, says there will be no reserved seats at the Bell ringers entertainment, and that the "first come the first served." The entertainment is a good one and should have a liberal patronage.

—Mr. A. S. Alexander, of Chicago, one of the editorial staff on the Farmers Review, also special correspondent for the North British Agriculturist and the London Stock Journal, the leading farmers papers in England, is in the city looking over the stock of Galbraith Bros.

—Yesterday was the warmest day of the season so far—in the afternoon the thermometer registered up among the minima. At one time in the afternoon and late in the evening there were many indications of a thunder storm coming this way, but the "clouds rolled by" without much of any atmospheric disturbance and but few drops of rain.

—The home of Mr. and Mrs. A. D. Baldwin, Clinton street, Third ward, was the scene of a private wedding on Saturday afternoon. Their daughter, Miss Flora M. Baldwin was married to Mr. Clarence E. Blackmer; the Rev. Dr. M. G. Hodge, of the Baptist church, officiating. Mr. and Mrs. Blackmer will receive the congratulations of their many friends.

—The sermon which Rev. A. J. Van Wagner delivered last evening, was one well suited to Memorial Sunday. The subject was "patriotism," and taking for an example Paul the apostle, he preached a sermon which was received with interest by the audience, especially by the W. H. Sargent Post, who occupied five rows of seats in the body of the church.

—On a call from the president, at the last regular meeting, there will be a special meeting of the Women's Relief Corps No. 21, auxiliary of W. H. Sargent Post No. 20, at post headquarters at 2:30 o'clock p. m. sharp, Tuesday, May 26th, (to-morrow), to make final arrangements for properly observing Memorial day. It is earnestly desired that every member should be present.

—The Weather.

At seven o'clock yesterday morning the thermometer indicated 64 degrees above zero. Partly cloudy with east wind. At one o'clock p. m. the register was 80 degrees above zero. Partly cloudy with south wind. At seven o'clock this morning the thermometer indicated 63 degrees above zero. Clear, with west wind. At one o'clock p. m. the register was 77 degrees above zero. Partly cloudy with southwest wind. For the corresponding hours one year ago the register was 63 and 61 degrees above zero.

—The Wisconsin State Homeopathic medical society will hold its opening session in the Myers house parlors to-morrow afternoon at two o'clock. In the evening the society will occupy Cannon's hall, and the proceedings, to which the public are cordially invited, will include an address from the mayor, a response by the president of the society, and speeches by several prominent people.

—Mr. A. D. Baldwin, of the third ward, called at the Gazette office this afternoon and requested us to emphatically decline the report published in the morning paper that he was married on Saturday last. Mr. Baldwin says he has one wife whom he is now living, and for the present he is satisfied. The item perhaps refers to the marriage of Miss Flora M. Baldwin and Mr. Clarence E. Blackmer, which was celebrated at Mr. Baldwin's residence at the time mentioned.

—The Wisconsin State Homeopathic medical society will hold its opening session in the Myers house parlors to-morrow afternoon at two o'clock. In the evening the society will occupy Cannon's hall, and the proceedings, to which the public are cordially invited, will include an address from the mayor, a response by the president of the society, and speeches by several prominent people.

—Mr. A. D. Baldwin, of the third ward, called at the Gazette office this afternoon and requested us to emphatically decline the report published in the morning paper that he was married on Saturday last. Mr. Baldwin says he has one wife whom he is now living, and for the present he is satisfied. The item perhaps refers to the marriage of Miss Flora M. Baldwin and Mr. Clarence E. Blackmer, which was celebrated at Mr. Baldwin's residence at the time mentioned.
